

SIMPLIFY & GROW

Why Choose Us

For over 25 years, LPA has been driving innovation in capital markets. We help banks and asset managers automate complex processes, streamline compliance and unlock the full potential of their data through scalable technology and deep industry expertise. By combining market knowledge with intelligent data usage, we enable sustainable growth and better decision-making.

What We Offer

Capmatix is LPA's integrated platform for managing issuance and distribution of structured products, automating OTC workflows and centralizing regulatory reporting and data management. With a strong focus on data, analytics and workflow automation, it enables efficient, scalable and data-driven operations across global markets.

Turn complexity into
simplicity: Helping
banks scale their structured
products business globally!
